XINGE YANG

singer-yang.github.io ⋄ xinge.yang@kaust.edu.sa ⋄ (+966) 545659075 ⋄ Thuwal, Saudi Arabia

EDUCATION

Ph.D, King Abdullah University of Science and Technology (KAUST) 2022 - 2025 (expected)
Computer Science. Advisor: Wolfgang Heidrich

M.Sc, King Abdullah University of Science and Technology 2020 - 2022
Computer Science. Advisor: Wolfgang Heidrich
Thesis: Automatic Lens Design based on Differentiable Ray-tracing.

B.Sc, University of Science and Technology of China (USTC) 2016 - 2020
Physics (major) and Computer Science (minor).

RESEARCH INTERESTS

My PhD research focuses on differentiable ray tracing and its applications in computational imaging and optical design. My representative work is a differentiable ray tracer **DeepLens** for End-to-End optical design. Some features of DeepLens: (1) inverse rendering for automated lens design, (2) task-driven lens design for high-level vision tasks, (3) hybrid refractive-diffractive lens design, and (4) optics-aware camera algorithm design.

Research area: computational imaging, optics, graphics.

RESEARCH AND WORK EXPERIENCE

Research Scientist Intern 10/2023 - 01/2024
Meta Reality Lab, Optics & Display Research *Redmond, WA*

· Write a differentiable simulator for a kind of AR waveguide from scratch. Use the simulator for waveguide design with more optimization power and less cost.

Ms/PhD Student: Computational Imaging 08/2020 - Now
KAUST, VCC Computational Imaging Group *Thuwal, Saudi Arabia*

· Develop a differentiable ray tracer DeepLens (>10000 lines of PyTorch code) for imaging simulation, inverse rendering, optical design, end-to-end optical design, and optics-aware camera algorithm design.

TEACHING EXPERIENCE

Teaching Assistant - GAMES 204: Computational Imaging 09/2022 - 12/2022
Chinese Graphics And Mixed Environment Symposium (GAMES) Webinar *Online*

Develop and grade assignments on computational imaging topics, including image signal processing, high dynamic range imaging, tone mapping, image deblurring, and multi-image fusion.

TECHNICAL SKILLS

Skills: ray tracing, imaging process simulation
Programming language: Python, C/C++, MATLAB, CUDA
Platform and tools: PyTorch, ZEMAX, Mitsuba

SERVICES

Reviewer for: IEEE TPAMI, Optica, Optics Express, JOSA A.

AWARDS

KAUST Ms/PhD Program Fellowship 2020 - 2025
Full scholarship supporting the progression of master and doctoral degrees.

KAUST CEMSE Dean's List Award 2023
Awarded to the top 20% PhD students, following nominations and based on research achievement.
